 Turbidity _____
 Dissolved organic carbon _____
 Total dissolved solids _____
 pH _____
 Suspended solids _____

Please attach copy of test result/s from accredited laboratory.

Name of accredited laboratory _____

Date of sampling _____

Summary of Legislation**Ilembe Bylaws**

Definition: Borehole means a hole sunk into earth and/or rock for the purpose of locating, abstracting or using subterranean water and includes a spring.

33. Notification of Boreholes

- 33.1 No person may sink a borehole on premises situated in a dolomite area and before sinking a borehole a person must determine if the premises on which the borehole is to be sunk is situated within a dolomite area.
- 33.2 The water service provider may, by public notice, require
- a) the owner of any premises within any area of the municipality upon which a borehole exists or, if the owner is not in occupation of such premises, the occupier to notify it of the existence of a borehole on such premises, and provide it with such information about the borehole that it may require; and
 - b) the owner or occupier of any premises who intends to sink a borehole on the premises, to notify it on the prescribed form of its intention to do so before any work in connection with sinking it is commenced.
- 33.3 The water service provider may require the owner or occupier of any premises who intends to sink a borehole, to undertake an environmental impact assessment of the intended borehole, to the satisfaction of the municipality, before sinking it.
- 33.4 The water service provider may by notice to an owner/occupier or by public notice, require an owner/occupier who has an existing borehole that is used for water supply services to
- a) obtain approval from it for the use of a borehole for potable water supply services in accordance with sections 6,7 and 22 of the Act; and
 - b) impose conditions in respect of the use of a borehole for potable water services.

Part 3: Methods for Determining Charges

50. Measurements of Quantity of Domestic Effluent Discharged

50.2 Where premises are supplied with water from a source other than, or in addition to, the municipality's water supply system including lawful abstraction from a river or borehole, the quantity must be a percentage of the total water used on those premises that is reasonably estimated by the municipality; and the municipality may, for this purpose, install a measuring device on the pipe premises from providing the supply of water to the such river or borehole.

National Water Act**Schedule 1****PERMISSIBLE USE OF WATER**

- (1) A person may, subject to this Act-
- (a) Take water for reasonable domestic use in that person's household, directly from any water resource to which that person has lawfull access:
 - (b) Take water for use on land owned or occupied by that person, for -
 - (i) reasonable domestic use
 - (ii) small gardening not for commercial purposes.
- (2) An entitlement under this Shedule does not override any other law, ordinance, bylaw or regulation, and is subject to any limitation or prohibition thereunder.

Please note other relevant sections and legislation is also applicable and the above is not an exhaustive list.
